Graduate Success Story

Damion Stoner, a June 2021 Maintenance Electricity & Construction Technology Graduate from Triangle Tech, Sunbury

"My name is Damion Stone, I graduated from the Maintenance Electricity and Construction Technology program in June, 2021. I chose the electrical program because I was seeking a career path that would place me in the workforce faster, but also provide me with a good education to give my family a comfortable living.

Triangle Tech was a short commute and I had heard so many positive things about their electrical program. When I started school, it was during Covid shutdowns; online classes were a challenge for me. But I stayed motivated by focusing on my end goal, an Associate degree.

Since graduation my achievements include finding a great maintenance position at Conestoga Wood Specialties. I am gaining valuable experience maintaining smooth operations of machinery and building maintenance.

As a Maintenance Technician, training and skills I use in my position are troubleshooting electrical panels and PLC's SLC's Servo Controllers. My job requires me to troubleshoot motors and replace if necessary; replace and maintain belts and pulleys.

I have set my goals high and plan to acquire my journeyman's license and work my way up to become an Electrical Engineer. I know that these goals will be reached because of my 16- month training at Triangle Tech."

The following 129 graduates of Triangle Tech were recently hired.
